

2016 Summer Yard Watering Calendar

WATER CONSERVATION TIPS:

Water your lawn every third day if needed. Use this calendar as a guide.

Mulch around plants to reduce evaporation and retain moisture.

Plant native plants. They require less water and less care.

Adjust your lawn mower to a higher setting. Taller grass blades hold moisture longer.

From your water provider. Calendar on reverse side.

Water conservation begins with you.
Water—Use it Wisely.

Find the color that corresponds with the **last 2 digits** of your house number:

Water every **3** days.
