- An Operating Permit is required for use of pyrotechnic devices for any indoor or outdoor assembly event.
- An inspection must be completed prior to the issuance of this type of Operating Permit, confirming compliance with the following:
 - All fire protection and life safety features have current maintenance within the timeframes set by Section 901 of the *Fire Code*.
 - The existence and adequacy of fire safety plans and emergency preparedness.
 - The means of egress are properly maintained.

If indoors:

 - The interior finishes are appropriate.
 - The occupancy calculations are correct and adequate.
- All required tests and reports should be consistent with the permit procedures found within NFPA 1126, which guide the Authority having Jurisdiction (AHJ) as well.
- Regulations for public events outlined in NFPA 1123 must be followed.
- An Operating Permit shall be required for each show or group of shows.
- The premises shall be made available for inspection prior to each event.
