Hi Amy,

It has been brought to my attention that a proposal has been submitted for a hot dip galvanizing process plant close to the Gleneagle 67th street entrance. This is very alarming due to the proximity of our neighborhood full of thousands of people. I myself am a homeowner in Gleneagle with 3 young children. The potential long term health affects of inhaling these fumes is not only frightening but irresponsible to even considered. I hope for the sake of my family and all my fellow neighbors that this proposal be rejected.

I appreciate your time and careful consideration.

Thank you,
Danielle & Tom Sowinski
