This message came from outside the City of Arlington

Hi There,

My husband and I just moved from Seattle to Arlington with our 4 month old daughter. We received a notification regarding the proposed hot dip galvanized process plant and specifically its proximity to our new home. We have great concerns regarding our health and safety with the location of this plant being so close to our new home.

Please consider a different location for this facility. Do not build it so close to a beautiful residential neighborhood and the city's golf course. There are many children, young families, and seniors in Gleneagle that would be negatively impacted by this plant.

Thank you,  
Emily Heart
