Subject: proposed hot dip galvanizing process plant
Date: Sunday, June 23, 2024 9:19:07 AM

This message is from an External Sender

This message came from outside the City of Arlington

Dear Miss Rusko,

I have become aware of the above proposal and wish to voice my opposition to this type of plant directly in front a residential area. We already have a constant smell of pot in the neighborhood from the grow houses in the area you are proposing to put this galvanizing plant.

My only question is do you live in this area? And if you don't would you want this plant near our home? I think not. I am not opposed to industrial growth but without concern for the health and safety of our established neighborhoods, this is proposal should not be acceptable.
