This message came from outside the City of Arlington

Hello Amy,

My husband and I live in the Gleneagle housing development and we have recently been advised that the city of Arlington is proposing to establish a hot dip galvanizing processing plant on 67th Ave which is very close to multiple housing developments, apartments and schools.

First and foremost how is this proposal even being considered? It is toxic to our community and will likely lead to illnesses and deaths. We strongly urge the city of Arlington not do something so harmful to our city and it's residents.

Thank you for your time.

Best regards,
Tara and John Atkinson
