Dear Amy Rusko,

I am writing in rebuttal of the proposed galvanizing plant near Gleneagle. This plant is not only near one of Arlington's elementary schools, but is very near to many lifelong Arlington citizens. This is a health hazard with many inherent dangers. I would suggest you choose a less densely populated area for such an endeavor as to avoid future lawsuits and to protect and ensure the health of the residents of Arlington.

My family with two young children live right next to the Gleneagle development and would be greatly impacted by this. I am vehemently against this galvanizing plant.

Sincerely,

Adena Doran
