Amy Rusko,

I just wanted to voice my concerns regarding the proposal of a hot dip galvanizing plant being built and operating in a residential area. I live in Glen Eagle and I'm opposed to one being so close to our neighborhoods. There are several health factors to consider that are dangerous if inhaled, especial for prolonged periods of time. Please do not approve the building of the plant on 67th. I would greatly appreciate it if you would reconsider moving it to a more appropriate location, far away from residential areas.

Thank you,

Amy Taylor
