Hello Ms. Rusko, a letter is circulating regarding the building of a Galvanizing Process Plant next to the Glenn Eagle residential area, I live in the vicinity. I'm hoping studies were conducted regarding the human effects of chemicals being used in a GPP. If not, I would like to be part of a petition to stop the building of a GPP in this area, until studies can be conducted on the chemicals used to ensure it is safe. I look forward to any information, studies conducted on the building and the hazardous materials used in the galvanizing of steel being processed at this facility.

Sincerely,

John Daus
