This message is from an External Sender

This message came from outside the City of Arlington

Amy,

My wife and I have been residents of Gleneagle for over 4 years and recently heard about the proposal for a hot dip galvanizing plant near our 67th street entrance.

We strongly urge you to decline the application to allow such a caustic business to open near such a large residential community.

These types of business should be located in areas that would allow the caustic fumes to dissipate far away from humans as to avoid any residual health issues.

Please deny the application to permit such an environmentally unfriendly business in our community.

Sincerely, Jeff & Lois Shumski

Jeff & Lois Shumski
