Dear Amy,

As residents of the Glen Eagle Community, my husband and I are both vehemently opposed to the idea of a hot dip galvanizing process plant anywhere near Glen Eagle. There are so many families with younger children and an elementary school in this area, so the very thought of this possibly happening is beyond comprehension. Are there any town meetings scheduled? What about environmental impact studies? Please keep us apprised by providing any websites or links that we can check continually to evaluate the progress on this. Thank you for your hard work,

Steve and Ginny Madison
