Hello Amy Rusko,

My name is Hilary MacTaggart. I want to express my extreme concern about this processing plant and its close proximity to Arlington High School. While Glen Eagle is the neighborhood getting notifications, the high school is located right next to Glen Eagle and the toxic fumes from this plant will affect my son who has ongoing health issues. I adamantly oppose this plant being established in the town of Arlington to which I am a resident of, and am extremely upset that a building that emits toxic fumes is even being considered so close to the school and neighborhood. These toxic fumes will affect more than just the adjacent property as fumes can spread through wind in any direction.
