Hello Amy,

I hope this is the correct channel. I'm writing to express concern about the proposal for a hot-dip galvanizing plant at 18520 67th Ave. I live in the Highland View Estates neighborhood down the road from Glen Eagle. I'm concerned about the common issue of poor wastewater management and air pollution contaminating the nearby ponds and wildlife, not to mention children and families spending time outside nearby. We already have so many industrial businesses concentrated in this area making the air smell toxic. It's also an eyesore.

Please pass this on to help us cultivate a safe environment for nearby wildlife and families.

Thank you so much!!
