Hello,

Regarding 67th proposed galvanization plant.

Please don't allow for any more toxic businesses to move into the area.

We should stop poisoning people period!

Making changes starts when people stop allowing it to happen at all. 0 emissions for toxic plants needs to happen now.

The concern is not about excessive sound, or more business personnel. The surrounding area is a heavily populated area. Our children play here. Our people live here. And you're talking about adding more toxic pollution to the area air. Specifically, cancer causing pollutants 5 minutes from my home. I live and work here this is not okay.
