Subject: Hot Dip Galvanization Plant Proposal
Date: Tuesday, June 25, 2024 10:11:35 AM

This message is from an External Sender

This message came from outside the City of Arlington

Good morning Ms. Rusko,

This letter is to inform you that our family is very concerned about the proposal for a plant being installed that will potentially decrease the air quality in our community and cause long-term health issues for our community. I would hope that the city of Arlington would agree and also decide that it should be placed further away from the residential area it's proposed for, with the close proximity of schools and people, it seems reckless and irresponsible to allow this harmful plant to be centered in town. I hope the city will consider the concerns of it's residents when deciding on this plant proposal.

Sincerely,
Christina Adamson
