Hello Amy,

I am reaching out to you to let you know my concern over the proposed hot dip galvanizing plant located at 18520 67th Ave.

I have resided in the Glen Eagle community for the last 15 years as a renter then a purchaser. The proposed location of the galvanizing plant

acrost the street from the entrance of the Glen Eagle housing development is just too close the the people who reside there.

The toxic fumes from the galvanizing process could pose a health risk for the residents. In my opinion this type of metal processing should

be located away from any housing area like Glen Eagle.

Thank You

George Weicker
