This message came from outside the City of Arlington

To whom it may concern,

I have just received notice that a proposal was submitted to the City of Arlington for the establishment of a Hot Dip Galvanizing Plant at the entrance to the Glen Eagle residential community at 18520 67th Ave.

I'm writing today to voice my opinion as an Arlington resident and a local small business owner. I firmly believe this site is not appropriate for this sort of industrial purpose. It is too close to residences and poses a significant risk to the health of our community members and their children and pets!

Please reconsider approval for this development!

Don't hesitate to reach out to me directly if you need anything and I'd be happy to provide a more formal statement or apply my signature to any existing petition of this construction.

Thank you,

Chris Anderson
