

## Chapter 20.16 Permits and Land Division Approval

### Narrative

The city is proposing revisions to Chapter 20.16 Permits and Land Division Approval per Second Substitute Senate Bill 5290, which updated timelines and added regulations related to permit processing. This changes the amount of time the City must review and approve land use permits, defines public meetings, streamlining permits through a consolidation process, some permit types may be excluded, review comment resubmittal and meetings, and required permit timeline reporting.
