SECTION 3. MUTUAL AID

3.1 **Request for Assistance.** The Incident Commander or his/her designee may request Mutual Aid assistance from another Party if confronted with an emergency situation in which the Requesting Agency has need for equipment or personnel in excess of that available through the Requesting Agency. Such requests shall be submitted pursuant to standard operating procedures established by the Parties.

3.2 **Response to Request.** Upon receipt of such a request the commanding officer of the Responding Agency shall immediately take the following actions:

V2017

3.2.5 The Parties recognize that time is critical during an emergency and diligent efforts will be made to respond to a request for Mutual Aid as rapidly as possible, including any notification(s) that requested resources are not available.

3.3. **No Requirement to Render Aid.** All personnel, resources and services provided under the terms of this Agreement are furnished and/or supplied voluntarily and at the discretion of the Responding Agency. The Responding Agency shall have the primary interest of protecting its own constituency. Nothing herein shall limit the legislative discretion of the governing bodies of the parties to determine their budget needs and determine appropriate levels of service, and nothing in this Agreement shall imply a duty to levy taxes, appropriate funds or enter into specific terms of a collective bargaining unit agreement in order to effectuate the terms of the Agreement.

SECTION 4. AUTOMATIC AID

4.1 **Emergency Response Services.** The Services described herein shall be on an automatic dispatch basis. The dispatch shall be based upon a pre-determined basis within the computer aided dispatch software. The response shall be established and agreed to by the Fire Chiefs of the Parties. Notwithstanding anything to the contrary, each Party reserves the right to control its own resources.

4.2 **Automatic Response Procedure.** On receipt of an alarm covered by a predetermined response plan, the dispatched "Unit(s)" of the Responding Agency shall immediately respond with apparatus, equipment and/or personnel when available.

4.3. **Temporary Inability to Provide Aid.** Prior to or upon receiving a call for automatic aid, the Requested Party shall inform the Requesting Party of inability to provide automatic response. It is anticipated that this inability will only occur at times when the requested resources of the Requested Party are otherwise committed.

4.4 **Total Withdrawal from Automatic Aid.** In the event a Party who is participating in Automatic Aid elects to withdraw from Automatic Aid with another agency, the withdrawing Party shall work with that agency, in good faith, to coordinate a reasonable phase-out period of Automatic Aid services.

SECTION 5. SPECIAL SERVICES

5.1 The Fire Chief of each Party shall determine, from time to time, the nature and level of specialized services (e.g., HAZMAT, rescue, etc.) that his or her jurisdiction shall provide under the terms of the Agreement, including participation with other Parties in establishing joint services.

SECTION 6. COMMAND RESPONSIBILITY AT EMERGENCY SCENES

6.1 The first arriving Officer to the scene of an emergency incident shall assume Command of the incident. Command may be assumed by a higher ranking officer from any jurisdiction. Command, however, shall be relinquished to an officer of the agency having jurisdiction upon that officer's request. All of the individuals in Command positions, of any incident related to this Agreement, shall be governed by the "Incident Command" safety considerations, as established by WAC 296-305 and the specific County Chiefs Association Policies.

SECTION 7. ACTION

7.1 When a Responding Agency assists a Requesting Agency, the Responding Agency acts under the direction of the Requesting Agency's authorized commander or his/her representative. This Section shall not require compliance with the direction of the on-scene commanding officer if, in the opinion of the commanding officer of the Responding Agency, such compliance would create an unreasonable risk to the health or safety of the Responding Agency's personnel. In the event that direction is refused by the commanding officer of the Responding Agency for safety considerations, a complete review after the incident shall be conducted by the Fire Chief of both parties to address the situation.

SECTION 8. TERMINATION OF SERVICE

8.1 The Incident Commander shall release the Responding Agency's equipment and personnel from service and allow them to return to the Responding Agency as soon as conditions warrant or upon request of the Responding Agency.

SECTION 9. LIABILITY - INDEMNIFICATION AND HOLD HARMLESS

9.1. No Liability for Responding Agency. Except as expressly provided herein, no Party shall be liable for (i) failure to comply with any provision of this Agreement, or (ii) liability arising from providing or refusing to provide Mutual Aid or Automatic Aid under this Agreement.

9.2. Mutual Releases. Except as specifically provided herein, each Party hereby forever releases or discharges each other Party, its officers, officials, employees, volunteers and/or agents from any claim related to this Agreement or providing Mutual or Automatic Aid hereunder.

9.3 Liability to Other Parties - Damage or Destruction to Apparatus or Equipment. Except as expressly provided herein, the Requesting Agency or any other Party shall not be obligated to pay the Responding Agency or any other Party for any damage to or destruction of any apparatus or equipment used in Mutual Aid. This provision shall not apply to the extent this provision would void applicable casualty insurance available to provide payment for the damage or loss of such apparatus or equipment. It is the intent of the Parties that the risk of loss to apparatus or equipment will be addressed by each Party through the purchase of casualty insurance or self-insurance as opposed to seeking reimbursement from other Parties.

9.4 Liability to Third Parties. The term "third party" means any person, firm or entity other than the Parties hereto. With regard to the Mutual Aid and Automatic Aid provided hereunder, each Party shall be responsible for all liability arising from or related to the negligent acts or willful misconduct of that Party, its officers, officials, employees, volunteers and/or agents which causes damage to third parties, to the extent and in proportion that such liability is caused by the negligent acts or willful misconduct of that Party, its officers, officials, employees, volunteers and/or agents. Notwithstanding the foregoing, nothing in this Agreement is intended to create a cause of action or standing in favor of third parties to initiate legal claims of any nature against any Party.

9.5 Cross Indemnification. To the extent permitted by law, each Party agrees to indemnify,

RESPONSE AND MUTUAL ASSISTANCE AND AUTHORITY TO PURCHASE ON OTHER FIRE
AGENCY CONTRACTS**

V2017

defend and hold harmless the other Parties, their officers, officials, employees, volunteers and/or agents from any and all claims, demands, causes of action, lawsuits, costs, including attorneys' fees, losses, judgments, awards or liabilities to any third party, arising out of the negligent acts or willful conduct of the indemnifying Party, its officers, officials, employees, volunteers and/or agents in connection with the performance of this Agreement.

9.6 Survival. The provisions of this Section shall survive the expiration or termination of this Agreement.

SECTION 10. INSURANCE

10.1 For the duration of this Agreement, each Party shall maintain its own public liability and property damage insurance or be self-insured against claims for injuries to persons or damage to property which may arise from or in connection with the performance of this Agreement by its officers, officials, employees or volunteers. The Fire Chiefs of the Parties may establish minimum insurance requirements. It is expressly understood that no Party shall be responsible to provide the other Party's employees with coverage required under Chapter 41.26 RCW, as the same now exists or may be hereafter amended.

10.2 To the extent permitted by the applicable insurance policies, each Party hereby waives any right of subrogation against the other Parties. In this regard each Party utilizing a self-insurance retention program waives subrogation for any payment thereunder.

SECTION 11. COMPENSATION

11.1 The Requesting Agency shall not be obligated to pay the Responding Agency for any damage to, loss of, or any expense(s) incurred in the operation of any equipment used in responding for aid, and for the cost incurred in connection with such requests. Except as may be mutually agreed between any Parties hereto in a separate interlocal agreement, or as provided in Section 11.2, each Party agrees that it will not seek compensation for services rendered under this Agreement from another Party to the Agreement; provided, however, that the Party requesting assistance shall attempt to obtain financial assistance from federal, state agencies or private Parties where financial assistance is available to reimburse the Responding Agency for losses or damages incurred in providing

Assistance under this Agreement. This provision shall not limit two or more Parties, of the Agreement, from entering into an agreement in other areas or different conditions for compensation.

11.2 Notwithstanding anything to the contrary in Section 11.1 of this agreement, if a Responding Agency responds to a catastrophic event which requires use of Responding Agency's resources for an extended period of time, then Responding Agency may seek compensation as provided herein.

11.2.1 Responding Agency shall notify Requesting Agency of its intent to seek compensation and the date that compensation for use of Responding Agency's resources shall commence. Compensation may be sought only for utilization of Responding Agency's resources provided after such notification is given or as otherwise mutually agreed by Requesting Agency and Responding Agency. Equipment and apparatus compensation shall be at the rates set forth in the Wage and Equipment Rates for the Washington Fire Service.

V2017

11.2.2 Notice of intent to seek compensation shall be provided in advance and shall be deemed sufficient if delivered verbally to the Incident Commander or as provided under section 23.1 of this agreement. If Requesting Agency is unable or unwilling to provide compensation to Responding Agency, Requesting Agency shall promptly notify Responding Agency.

11.3 Except as may be provided in a separate agreement, the Responding Agency will comply with the collection policy of the Requesting Agency and all applicable laws and regulations with respect to billing and collection of transport fees or other emergency response related fees. Nothing in this Section shall require a Responding Agency to charge any such fees.

SECTION 12. SPECIALIZED RESPONSE TEAMS

12.1 Each Party or combination of Parties that operate a special response team shall establish policies and procedures to meet all requirements set by state and federal law. Any specialized team shall have Standard Operational Procedures or Guidelines.

SECTION 13. TEMPORARY USE OF EQUIPMENT OR VEHICLE

13.1 In the event a Party has equipment or a vehicle that is temporarily out of service and has an immediate need for that type of equipment and another Party has similar reserve equipment available, the Party in need may request that the other Party lend the necessary equipment. The Party borrowing the equipment shall be responsible for the maintenance of the loaned equipment during the period of time it is in their custody. The Party borrowing the equipment shall return the equipment to the lending Party when requested or when the equipment is no longer needed, whichever occurs first. The borrowed equipment shall be returned in a clean condition and within the same operable condition as it was provided.

13.2 The Party supplying the equipment and the Party borrowing the equipment shall enter into a written agreement in advance as to which Party's insurance shall cover the equipment if damage occurs while the equipment is being borrowed. In the absence of any such agreement, the lending Party's insurance shall be responsible.

13.3 The Party receiving the equipment must ensure that all employees who will be operating the equipment are properly trained to operate the specific equipment being borrowed.

13.4 Each Party understands that it is responsible under applicable regulations to maintain its equipment, including the equipment available to be loaned pursuant to this Agreement, in accordance with applicable manufacturer's specifications and any applicable laws and regulations.
