L&I Certification Number:	Expiration Date: _____		

The support system and stabilizing devices for any unit must be designed and installed in accordance with the manufacturer's specifications. The support system may have to be specially designed and installed in the following instances:

- The land for the unit is identified as a flood hazard area.
- The manufacturer's specifications are not available.
- The construction of your unit must be approved by L&I and have the appropriate insignia with identification number affixed to the unit. Those units not bearing the appropriate insignias must meet additional requirements set forth below.
- **Units without the L&I insignia and identification label:** Units manufactured prior to June 15, 1976 will need an L&I alteration/fire/safety inspection, unless the unit has the appropriate L&I insignia.
- Verification of this inspection and approval from L&I is required prior to issuance of the Manufactured/Mobile Home permit by City of Arlington.

I hereby certify that I am the Owner, Applicant, Certified Installer and authorized to sign this application and that the above information is correct and that the construction on, and the occupancy and the use of the above described property will be accordance with the laws, rules and regulations of the State of Washington and the City of Arlington.
